## Chapter 1 : The Story Of Village Palampur

Class

9

Powered by

**1. Every village in India is surveyed once in ten years during the Census and some of the details are presented in the following format. Fill up the following based on information on Palampur.**

- a. **LOCATION:**
- b. **TOTAL AREA OF THE VILLAGE:**
- c. **LAND USE (in hectares):**

Cultivated Land		Land not available for cultivation (Area covering dwellings, roads, ponds, grazing ground)
Irrigated	Unirrigated	
		26 hectares

**d) FACILITIES:**

<b>Educational</b>	
<b>Medical</b>	
<b>Market</b>	
<b>Electricity Supply</b>	
<b>Communication</b>	
<b>Nearest Town</b>	

**Answer:**

- a. **LOCATION:** Bulandshahr District, Western Uttar Pradesh
- b. **TOTAL AREA OF THE VILLAGE:** 226 hectares
- c. **LAND USE (in hectares):**

Cultivated Land		Land not available for cultivation (Area covering dwellings, roads, ponds, grazing ground)
Irrigated	Unirrigated	
200 hectares	—	
		26 hectares

**1. FACILITIES:**

<b>Educational</b>	1 high school, 2 primary schools
--------------------	----------------------------------

Medical	1 private dispensary, 1 primary health care centre run by the Government
Market	2 markets: Raiganj and Shahpur
Electricity Supply	Most of the houses have electricity connections. Electricity powers all the tubewells in the fields and is used for various small business.
Communication	Well-connected neighbouring villages, with Raiganj located within 3 kms. Proper transportation including bullock carts, tongas and bogeys carrying jaggery. Also, motor vehicles like motorcycles, jeeps, tractors and trucks are available for easy transportation.
Nearest Town	Shahpur

**2. Modern farming methods require more inputs which are manufactured in industries. Do you agree?**

**Answer:**

Yes, it is correct to say that modern farming methods require more inputs which are manufactured in industries. It is because modern farming methods use high-yielding varieties of seeds. These seeds require both chemical fertilisers and pesticides, agricultural implementations like tractors and proper irrigation facilities like electric tube wells, and all these elements are manufactured in industries. However, on the other hand, traditional farming methods use a relatively low-yielding variety of seeds and use cow dung and other natural manures as fertiliser, which is why they are less dependent on industrial outputs.

**3. How did the spread of electricity help farmers in Palampur?**

**Answer:**

The spread of electricity helped the farmers of Palampur as it aided in the transformation of the irrigation system of the village. The farmers earlier used Persian wheels to draw water from wells and irrigate small fields. But after the spread of electricity, electric tube wells replaced these Persian wheels. The first tube well was installed by the Government, but later, private

tube wells were also set up by the farmers, resulting in the cultivation of the entire 200 hectares of irrigated land by the 1970s.

**4. Is it important to increase the area under irrigation? Why?**

**Answer:**

It is important to increase the land under irrigation because farming is the main source of income for the maximum part of the population in India and only less than 40 per cent of the land is cultivable in the country. Farmers are dependent on the erratic monsoon season, and if the rainfall is less, farmers are bound to suffer a major loss. So if the water is provided for irrigation to the farmers for a larger portion of land, it would give better output and make more land cultivable in India and also encourage farmers to take up newer farming methods without the fear of suffering loss.

**5. Construct a table on the distribution of land among the 450 families of Palampur.**

**Answer:**

The distribution of land among the 450 families of Palampur is as given below:

Area of land Cultivated	Number of Families
0	150
Less than 2 hectares	240
More than 2 hectares	60

**6. Why are the wages for farm labourers in Palampur less than minimum wages?**

**Answer:**

There are many landless farm labourers who are paid less than the minimum wages in Palampur. The Government-declared wage for a farm labourer is Rs 300 per day, but the competition for work among the farm labourers is very high, which is why people agree to work for lower wages.

**7. In your region, talk to two labourers. Choose either farm labourers or labourers working at construction sites. What wages do they get? Are they paid in cash or kind? Do they get work regularly? Are they in debt?**

**Answer:**

Students must do this activity themselves and answer the question based on their survey.

**8. What are the different ways of increasing production on the same piece of land? Use examples to explain.**

**Answer:**

To grow more than one crop on a piece of land during the year is known as multiple cropping. It is the most common way of increasing production on a given piece of land. The best example of this is the cultivation in Palampur. In Palampur, jowar and bajra grow during the rainy season, followed by potato between October and December, and during the winter season, wheat is sown in the fields. The main reason for this is the well-developed system of irrigation.

**9. Describe the work of a farmer with 1 hectare of land.**

**Answer:**

A farmer with 1 hectare of land will be called a small farmer. Since the area for cultivation is small, the outcome may also not be high. So, in order to be able to get the best possible yield, the farmer needs money. This money is borrowed from a moneylender at a high interest rate and at times may also have to work as a farm labourer for the moneylender. Once the farm is cultivated, the produce has to be divided for personal use and for selling in the market. Whatever profit is earned, the farmer has to usually give it away to the moneylender, and little money is left for the use of the farmer himself. The only help a small farmer gets is that of his family members.

**10. How do the medium and large farmers obtain capital for farming? How is it different from the small farmers?**

**Answer:**

Large and medium farmers sell surplus farm products from a part of their produce. A part of the earnings is saved and kept for buying capital for the next season. A few of them give away the savings to small farmers and loans at high interest rates and get back the amount by the next season. Thus, they are able to arrange for the capital for farming from their own savings. Some farmers might also use the savings to buy cattle, trucks, or to set up shops.

**11. On what terms did Savita get a loan from Tejpal Singh? Would Savita's condition be different if she could get a loan from the bank at a low rate of interest?**

**Answer:**

Savita got a loan from Tejpal Singh at the rate of interest of 24 per cent for four months and also had to work for Tejpal Singh as a farm labourer at the wage of Rs 100 per day during the harvest season.

The case would have been different if Savita had taken the loan from a bank. The rate of interest would have been lesser than what was asked by Tejpal Singh and also she would have been able to pay complete attention to her own field during the time of harvest.

**12. Talk to some old residents in your region and write a short report on the changes in irrigation and changes in production methods during the last 30 years.**

**Answer:** Students must do this activity and write an answer based on their own observation.

**13. What are the non-farm production activities taking place in your region? Make a short list.**

**Answer:**

The non-farm production activities taking place in our region are as follow:

1. Dairy
2. Transportation
3. General Stores
4. Fishing

5. Mining

**14. What can be done so that more non-farm production activities can be started in villages?**

**Answer:**

To promote more non-farm production activities in villages, the following steps can be taken:

1. Loans must be available for people at lower interest rates so that they can start the non-farm production activities.
2. Proper markets should be set up so that the produced goods can be sold.
3. The concerned authorities must set up better transportation between cities and villages so that the produced goods can be transported to cities and more money can be earned through the non-farming activities.

# JOIN OUR WHATSAPP GROUPS

FOR FREE EDUCATIONAL  
RESOURCES

---

## JOIN SCHOOL OF EDUCATORS WHATSAPP GROUPS FOR FREE EDUCATIONAL RESOURCES

We are thrilled to introduce the School of Educators WhatsApp Group, a platform designed exclusively for educators to enhance your teaching & Learning experience and learning outcomes. Here are some of the key benefits you can expect from joining our group:

### BENEFITS OF SOE WHATSAPP GROUPS

---

- **Abundance of Content:** Members gain access to an extensive repository of educational materials tailored to their class level. This includes various formats such as PDFs, Word files, PowerPoint presentations, lesson plans, worksheets, practical tips, viva questions, reference books, smart content, curriculum details, syllabus, marking schemes, exam patterns, and blueprints. This rich assortment of resources enhances teaching and learning experiences.
- **Immediate Doubt Resolution:** The group facilitates quick clarification of doubts. Members can seek assistance by sending messages, and experts promptly respond to queries. This real-time interaction fosters a supportive learning environment where educators and students can exchange knowledge and address concerns effectively.
- **Access to Previous Years' Question Papers and Topper Answers:** The group provides access to previous years' question papers (PYQ) and exemplary answer scripts of toppers. This resource is invaluable for exam preparation, allowing individuals to familiarize themselves with the exam format, gain insights into scoring techniques, and enhance their performance in assessments.

- **Free and Unlimited Resources:** Members enjoy the benefit of accessing an array of educational resources without any cost restrictions. Whether its study materials, teaching aids, or assessment tools, the group offers an abundance of resources tailored to individual needs. This accessibility ensures that educators and students have ample support in their academic endeavors without financial constraints.
- **Instant Access to Educational Content:** SOE WhatsApp groups are a platform where teachers can access a wide range of educational content instantly. This includes study materials, notes, sample papers, reference materials, and relevant links shared by group members and moderators.
- **Timely Updates and Reminders:** SOE WhatsApp groups serve as a source of timely updates and reminders about important dates, exam schedules, syllabus changes, and academic events. Teachers can stay informed and well-prepared for upcoming assessments and activities.
- **Interactive Learning Environment:** Teachers can engage in discussions, ask questions, and seek clarifications within the group, creating an interactive learning environment. This fosters collaboration, peer learning, and knowledge sharing among group members, enhancing understanding and retention of concepts.
- **Access to Expert Guidance:** SOE WhatsApp groups are moderated by subject matter experts, teachers, or experienced educators can benefit from their guidance, expertise, and insights on various academic topics, exam strategies, and study techniques.

Join the School of Educators WhatsApp Group today and unlock a world of resources, support, and collaboration to take your teaching to new heights. To join, simply click on the group links provided below or send a message to +91-95208-77777 expressing your interest.

**Together, let's empower ourselves & Our Students and  
inspire the next generation of learners.**

**Best Regards,  
Team  
School of Educators**

## Groups Rules & Regulations:

**To maximize the benefits of these WhatsApp groups, follow these guidelines:**

1. Share your valuable resources with the group.
2. Help your fellow educators by answering their queries.
3. Watch and engage with shared videos in the group.
4. Distribute WhatsApp group resources among your students.
5. Encourage your colleagues to join these groups.

### **Additional notes:**

1. Avoid posting messages between 9 PM and 7 AM.
2. After sharing resources with students, consider deleting outdated data if necessary.
3. It's a NO Nuisance groups, single nuisance and you will be removed.
  - No introductions.
  - No greetings or wish messages.
  - No personal chats or messages.
  - No spam. Or voice calls
  - Share and seek learning resources only.

**Please only share and request learning resources. For assistance, contact the helpline via WhatsApp: +91-95208-77777.**
